Re: RGV Educational Broadcasting, Inc.  
KMBH-FM, Harlingen, Texas  
Facility Identification Number: 56081  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed April 4, 2011, on behalf of RGV Educational Broadcasting, Inc. ("RGV"). RGV requests extension of the special temporary authority ("STA") granted on September 21, 2010, to operate Station KMBH-FM with temporary facilities.<sup>1</sup> In support of the request, RGV states that the station's licensed tower was destroyed by a hurricane and that it continues diligently to search for a new site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KMBH-FM may continue to operate with the following facilities:

---

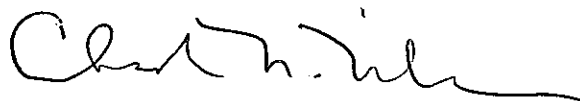

<sup>1</sup> KMBH-FM is licensed for operation on Channel 205A (88.9 MHz) with effective radiated power of 3 kilowatts (H&V) and antenna height above average terrain of 91 meters.

Geographic coordinates:	26° 09' 01" N, 97° 30' 58" W (NAD 1927)
Channel	205 (88.9 MHz)
Effective radiated power:	4.6 kilowatts (H&V)
ASRN:	1214446
Antenna height:	
above ground:	36 meters
above mean sea level:	42 meters
above average terrain:	35 meters

RGV must notify the Commission when licensed operation is restored. RGV must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 7, 2011**.

Sincerely,

Charles N. Miller, Engineer  
Audio Division  
Media Bureau
